From the initial in the ancient city of Bursa in Turkey, design conceptualization to the final which is also an industrial hub today. installation, Mobi is able to deliver In Bursa, Mobi is able to harness its contract clients a fully integrated elements of a rich cultural heritage, experience, anywhere in the world. interpret it through its language A highly skilled and flexible team of design and manufacture its of architects and engineers work world-renowned furniture by using in the design department where traditional craftsmanship and the best solutions for client's needs cutting-edge technology. This are sought and implemented. manufacturing system, which brings Completed projects include luxury together tradition with technology, hotels, residences and offices.

Celebrating it's 41st anniversary, Mobi's artful journey started in Bursa, Turkey in 1983. Founded by the award winning furniture and interior designer A. Rasit Karaaslan, Mobi is the most well known manufacturer of contemporary design furniture from Turkey. The timeless and universal appeal of the designer's work has won him and Mobi several prestigious international design awards. His signature style involves the use of rounded forms and organic lines within a contemporary aesthetic and accentuating the beauty of wood. Right from the beginning, designer A. Rasit Karaaslan was keen on introducing Turkish design and craftsmanship to the high-end furniture market around the globe. It is his visionary approach, combined with superb woodworking skills of its artisans, that made Mobi into the world-renowned company it is today.
